HOW TO READ THIS MANUAL

Throughout this manual we will use the following ways of representing information:

MENU COMMANDS
will be CAPITALIZED.

Example:
SAVE, RESTORE, QUIT, PAUSE

TYPED COMMANDS
will appear as BOLD TYPE.

Example:
'type: [example game command]'
'type: cd \sierra'

Portions of the command line not meant to be typed will not appear in bold type. For example, in the line 'type: cd \sierra', 'type:' should not be typed.

[example text] and [Keystrokes] will appear in brackets setting them off from the surrounding text.

Example:
[object], [character], [Spacebar], [Tab],
[PageUp]
The brackets are not keystrokes and should not be typed.

Two or more keys that should be pressed at the same time will be separated by a hyphen (-). This hyphen is not a keystroke, and should not be typed.

Example:
'Press [CTRL-I] to view your inventory.'

If a space appears between parts of a command, it is meant to be typed.

Example:
'type: cd \sierra' (the space between cd and \sierra should be typed as part of the command)

The term "diskette" is used to refer to either 3.5" or 5.25" data storage disks.

ALL SYSTEMS

GETTING STARTED: DISKETTE DRIVES

It is always advisable to make back-up copies of your master program diskettes to increase the life of the masters and guard against accidents. Follow your computer's instructions to make copies of all game diskettes.

If you will be playing from diskettes rather than a hard disk, you will also want to format a blank diskette for saving games. *In fact, saving games to diskettes is a good idea, even if you are playing the game from your hard disk.* Follow your computer's instructions to format a blank diskette and keep it handy for saving your game as you play. For some helpful tips on saving games, see the 'Saving Your Game' (Page 11) section of this manual.

When installing your program, you may be prompted to insert a 'Drivers' disk. If you receive this prompt, please examine your disks and insert the disk marked 'Drivers' and press [ENTER], so that the appropriate drivers will be loaded. Some games do not include a separate 'Drivers' disk.

MS-DOS

■ INSTALL THE GAME

Place the back-up copy you have made of Disk 1 into your diskette drive. Type the letter of the disk drive you have placed the disk into (followed by a colon (for example, **a:**), and press [ENTER]. Type: **install** and press [ENTER].

Answer the onscreen questions using the up and down [Arrow] keys to highlight your selections, then press [ENTER] to select. You will be asked if you wish to install the game on your hard disk. If you do *not* wish the game to be installed on your hard disk, press [ESC] to skip this step. If you want to install the game on your hard disk, enter the letter designation of your hard disk (usually **C:**) and follow the prompts.

NOTE: Even if you install to a hard disk, the install procedure will write a file named **RESOURCE.CFG** to Disk 1. For the installation to be completed correctly, **DISK 1 MUST NOT BE WRITE PROTECTED**. No other files on Disk 1 are written or changed by the install command.

■ LOADING INSTRUCTIONS

*After completing the **INSTALL** procedure:*

From diskettes:

1. Place Disk 1 into the **A:** drive.
2. Type: **a:** and press [ENTER].
3. Type: **sierra** and press [ENTER].

From hard disk:

1. From your root directory, type **cd \sierra** and press [ENTER].
2. Type **{ok}** and press [ENTER].

Going Native with Uncle Carlos

This Week: Native Crafts of Nantoonyt

From the time of the earliest Nantoonyt natives, island grasses have been used for a variety of useful and durable items. The island Community Center offers lessons, with new classes starting every month.

GRASS WEAVING

Suitable grass once grew in many places on the island, but is now scarce. The illustrations below show one of the more popular patterns favored by traditional weavers, in three easy-to-follow steps.

Try it -- it's fun!

LEI-MAKING

The art of making leis has been popular on the island since ancient times, but has changed little. All one needs is a dozen or so flowers. Lei classes are available at the

Nontoonyt Community Center, check the Community Calendar for dates and times.

WOODCARVING

Woodcarving is another ancient Nontoonyt craft – in fact, the island is known far and wide for its unique wooden sculptures, and tourists come from miles around to buy them from native vendors. If you don't want to spend up to \$20 for such a sculpture, you might want to try carving your own. Granadilla wood is another item that isn't as plentiful as it once was on Nontoonyt, but if you can find it, it's free for the taking. The best pieces even seem to suggest the shapes they will take under the carver's knife. If you decide to carve your own, you'll want to check the Community Center for the dates and times of their Wood Carving classes.

If you do decide to buy a genuine native sculpture, watch out for phony 'Native Vendors' on the local beaches. Many of these are not Nontoonyt natives at all, but phonies dressed in traditional native clothing in order to make a sale, and their 'genuine souvenirs' usually turn out to be nothing more than cheap imitations. The ancient islanders had some fascinating uses for these oddly-shaped sculptures; for instance, single women (cont. on pg. 118).

■ SAVING GAMES TO DISKETTES

NOTE: If you're playing from diskettes, you must have a separate formatted diskette ready before you can save a game. Since each disk can only hold a limited number of games, we recommend that you have more than one disk formatted, in order to assure adequate space for save game storage.

Choose **SAVE GAME** from the File menu or press the [F5] key. The Save Game menu will appear.

Use your [Tab] key to choose **CHANGE DIRECTORY**. Backspace or press [Ctrl-C] to clear the command line.

Type the letter of the drive you are using for saved games, followed by a colon (Example: **ac**) and press [ENTER].

Type the name of your saved game and press [ENTER] to complete the **SAVE GAME** procedure. If your disk for saving games is full, you may reformat it (this will erase the saved games on the disk) and use it over, or use another formatted blank disk.

■ SAVING GAMES TO HARD DISK

If you choose to save games to the hard disk, the program will automatically try to save to the game's own directory. If you run out of space for saving games, try one of the following alternatives:

Save additional games to a diskette.

Save games to a different directory by choosing **CHANGE DIRECTORY** from the **SAVE GAME** menu (inside the game).

Create a new hard disk directory from DOS, using DOS instructions.

Delete all saved games and the saved game directory from your hard disk by following DOS instructions (outside the game). The program will create a new index file within the game directory.

LOCALS CONCERNED OVER OFFSHORE OIL RIGS

NPI-Rovers' leasing of Nontoonyt mineral rights to Slippy Oil Inc. has many island residents concerned over possible pollution of our beaches and local waters. We ran into Chairman Kennedy relaxing on Wacka's Beach last before press time. "D there a pollution problem?" we asked him. "Absolutely not," he replied, scraping a bit of sludge from the bottom of his cocktail glass onto a napkin page 24.

DINING OUT

By Yahoo Arias

Since

its gala premiere in 1988, *The Sand Crab Room* at the Nonnoony Casino has been, in this reviewer's opinion, synonymous with elegant dining. Consider such culinary rituals as the Friday Buffet featuring Feral Pig a l'Orange, Feral Pig Under Glass, even Feral Pig Torture. Presiding over this opulent dining experience is Chef Sonni, a French native whose distinguished career includes 22 years on Devil's Island. Featuring *survive-to-gauche* decor and nightly entertainment, you'll find that the sophisticated ambience of the Sand Crab Room more than makes up for the exorbitant prices. *****

For

a more casual dining experience, try *Country Ray's Bamboo Gazebo* specializing in such wonders of the Orient as Feral Pig Chow Yuk, Pork, Fat Sub Gum and Country Ray's own X-rated fortune cookies. *****

Freddi's

Feral Bar-B-Q located downtown features an All-U-Can-Stomach luncheon special which is possibly even worth the \$2.50 price, if you count the bottomless trough of Bear Whiz Ale. ***

An

experience to be missed is the Feral Pigs-In-A-Blanket at *Piggi's 24 Hour Coffee Shop*. Even Piggi's 24 hour coffee can't help these hapless hams. *

* = Your dog wouldn't eat here.

** = Your dog would eat here, but I wouldn't.

*** = Tolerable; your dog and I do lunch here.

**** = Superior; I won't be seen with your dog here.

***** = Awesome; an epiphany of culinary splendor.

You may move your character on the screen with the [Arrow] keys, the numeric keypad, or the mouse. To halt your character's steps with the keypad, press the number 5, or press the last used direction key again. Do **not** attempt to move the character by holding down the direction key. This will cause the character to start and stop continuously, resulting in very slow progress.

Using the mouse, position the arrow where you want the character to move, then click the left mouse button (if your mouse has multiple buttons).

■ MENUS

When you press [ESC], a menu bar will appear at the top of your screen with several menus that can be opened to show the command choices available to you.

■ KEYS TO USE IN THE MENUS

■ GAME SPEED CONTROL

At times it may be useful to slow down the speed of the game animation in order to negotiate a tricky section, or observe something more carefully. At other times, you may wish to speed up the game action. To increase or decrease animation speed, choose FASTER or SLOWER from the Speed Menu, or use the [+] key to increase speed, the [-] key to decrease speed, or the [=] key to return to normal animation speed.

HIGHLIGHTS

Featuring Paul Paul

Rising young comedian Paul Paul of Oakhurst, California is now appearing at The Comedy Hut for a special two week engagement. I spoke with Paul recently between shows and he told me a little about his humble beginnings in show business.

Born Melvin Melvin in 1964 to Melba and Marvin Melvin of Gary, Indiana, it was soon apparent that Paul was not like other children. In fact, most other children weren't even allowed to play with him. At age 14, Paul entered Gary High School, where he was soon dubbed 'The

New-er New-er

ines Washeth...

N92

Pat

inment

Hung-Garyan' by classmates in the locker room. Paul refused further comment on the unusual nickname.

When he was 18, Paul entered the family business — Melvin's Discount Mortuary 'in the beautiful Downtown Gary Mall',

founded in 1893 by brothers Morton and Myron Melvin. During lunch hours and coffee breaks, Paul began to conceive his first comic routine. Unfortunately, he delivered it during a eulogy. This incident cost Paul his position at M.D.M., but revealed to him his true calling in life.

At age 18.5, Paul began a new life in Oakhurst, California as a night club entertainer playing such exclusive establishments as Sierra Lanes, The Caddy Shack Lounge and Oakhurst Funeral Chapel.

■ USING THE MOUSE (optional)

Your mouse will be useful to you in moving your character, and in learning about your surroundings. To move your character using the mouse, position the arrow to where you want the character to move, then click the mouse button. If your mouse has more than one button, use the left button.

■ EXAMPLES OF COMMON COMMANDS

Communicating with Leisure Suit Larry 3

You can generally interact with the game by typing simple commands consisting of as little as a noun and a verb. For instance, the command *sit* in the chair can be shortened to *sd* in chair, or even *sit*. Unless otherwise directed, follow all typed commands with [ENTER].

Many characters in the game will have information of one kind or another for you. To talk with a character, type: *talk to* [character] (for example: *talk to man*). Try different approaches, and talk to everyone you meet.

You may encounter objects you need along the way. To take an object, type: *take or get* [object]. For example, *take the note*. You will need to use the objects you acquire as you explore. You can try different things such as typing: *use the* [object], or *give the* [object] to [character]. Different approaches to a puzzle may bring about a different outcome.

Pay close attention to details. To examine objects, type *look at the* [object], (for example: *look at the table*). To get a general description of the current room or scene, type *look around*, or use your mouse to choose LOOK from the menu.

A message window will appear after you enter each command, and at other times during the game. When you have read the message, press [ENTER] to remove the window and resume play.

■ RETYPING COMMANDS

If you wish to repeat a command select RETYPE from the ACTION menu or press the [SPACEBAR] or [F3].

■ INVENTORY

If you wish to see the items you are carrying, select INVENTORY from the Action menu, type: inventory, press [CTRL-I], or press the [TAB] key. A list of the items you are carrying will be displayed. To look more closely at an item, use your [Arrow] key to highlight the item and press [ENTER]. A picture of the item, along with a brief description, will appear on your screen. Press [ENTER] or [ESC] to resume play.

■ PAUSING YOUR GAME

If you wish to pause the game, select PAUSE from the Action menu, type: pause game, or press [Ctrl-P]. Press [ESC] or [ENTER] to resume play.

■ SAVING YOUR GAME

If you wish to save your game, select SAVE from the File menu, type: save game, or press [F5]. To allow for errors in judgement and creative exploration, we recommend that you frequently save your game in progress, and that you save several different games from different points as you play. You will always want to save your game before encountering potentially dangerous situations. You should also save your game whenever you have made significant progress.

PLEASE NOTE: If you're playing from diskettes, you must have a separate formatted diskette ready before you can save a game. Since each disk can only hold a limited number of games, we recommend that you have more than one disk formatted, in order to assure adequate space for save game storage.

If you choose to save games to your hard disk, we suggest that you create one or more save game directories or folders on your hard disk. See your computer's instructions for creating directories or folders.

Communicating with Leisure Suit Larry 3

Leisure Suit Larry 3 understands many common verbs. Here are some you might try:

ASK	DROP	SEARCH	TELL
BUY	EAT	PLAY	SIT
THROW	CLIMB	GET	PUSH
SNEAK	USE	CLOSE	GIVE
READ	STAND	WALK	DRINK
OPEN	RUN	TAKE	

LOOK everywhere. Thoroughly explore your surroundings. Open doors and drawers, look under things and behind things for valuable objects and clues. Look closely at all objects you encounter or you may miss important details.

EXPLORE each area of the game very carefully. Search every area of the game. Be careful!! There are many hazards awaiting you!

DRAW A MAP as you progress through the game. Make a note of each area you visit, and include information about objects found there and dangerous areas nearby. If you miss an area, you may miss an important clue!

GET objects you think you will need. You will come across a number of objects that may be of use to you later. You can see an inventory of items on hand by pressing the [Tab] key at any time.

USE the items you have picked up to solve problems in the game, or to help you to make progress and discover more clues.

BE CAREFUL, and remain alert at all times — disaster may strike in the most unlikely of places.

SAVE YOUR GAME OFTEN, especially when you are about to try something new or potentially dangerous. This way, if the worst should happen, you won't have to start all over again from the beginning. Save games at different points of the game, so you will be able to return to a desired point in the game. In effect, this will enable you to travel backward through time and do things differently if you wish.

DON'T GET DISCOURAGED. If you come to an obstacle that seems insurmountable, don't despair. Spend some time exploring another area, and come back later. Every problem in the game has at least one solution, and some have more than one. Sometimes solving a problem one way will make it harder to solve the next, and sometimes it will make it easier. If you get stuck, you might try backtracking to an earlier point in the game, then choosing a different path. If all else fails, you can buy the *LEISURE SUIT LARRY* hint book from the dealer who sold you the game, or you can order it directly from Sierra On-Line by calling (800) 326-6654.

BRING ALONG SOME HELP. You may find it helpful (and fun) to play the game with a friend. Two (or more) heads are better than one at interpreting clues and solving problems.

YOUR WALKING TOUR OF

Nontoonyt

This article contains many revealing hints about Nontoonyt Island.

Please read on only if you do not mind learning things about Nontoonyt that you would rather discover for yourself. For more information about how to enjoy your walk, see the item entitled:

FOR BEGINNING ADVENTURERS
on Page 20

Since our lovely island embodies a wealth of fascinating vistas for the observant tourist, perhaps the best place to begin would be Vista Point. The first thing you'll want to do at Vista Point, is, of course, to **look at the view**. From this height, you'll be able to pick out many details of the beach and city below. On the Point itself, you'll want to **look at the lawn** in the center of the paved area, which contains an historical plaque of interest to the island visitor. **Read the plaque** to find out more of the history of Nontoonyt. You'll have to get close to be able to read it well.

When you **stop looking at the plaque**, you might walk to the railing and take a good look at this delightful island of ours. As you **look at the ocean**, and **look up into the sky**, you will understand immediately why Nontoonyt is the new paradise of the Pacific. Notice the two sets of binoculars at the head of the point. The view to the east is really spectacular, so you may want to go to the binoculars on the right. **Look at the binoculars**. They are a marvel of optical technology, aren't they? If you'd like to see the island up close, you may even want to **look in the binoculars**. The view to the west is, some say, even more stimulating. For a truly exciting viewing experience, go over to the binoculars on the left. When you **look in the binoculars**, we promise you a sight you won't see just anywhere.

Nontoxoyt

After enjoying Vista Point, we recommend a visit to the elegant home of Larry Laffer and Princess Kalalan Laffer, daughter of Chairman (the Chief) Kenner Wau Wau. The Laffers are two of Nontoxoyt's leading citizens. Go east from the point, then west through the jungle. The Laffer residence is just on the west side of this bit of natural forest; the Famous Pointing Finger will show the way. **Look at the scene** as you stroll.

Like a gem of tropical architecture in the midst of natural splendor, the Laffer estate is surrounded by a high wall, over which you can glimpse a hot tub. When you **look at the hot tub**, you'll be impressed with the exquisite taste shown in selecting this home accessory. The Laffer home has an excellent security system. It is very unlikely that anyone could **climb the wall** and enter unlawfully.

Not far from here is Walken Park. Go east down the Laffer walkway, then take the farthest southwest route from the forest, and you will be in the park. **Look at the park** and enjoy the quiet surroundings. **Turn on the television set** and sit down on the park bench awhile. This is the only TV on Nontoxoyt Island. When you've had your fill of television, you'll be ready to **stand up** and head back for the cool green calm of the forest to the east. When you get there, take your time and **look around**. Many species of local flora grow here, such as the granadilla tree, whose wood is used by native carvers. **Look at the granadilla tree**, and you will see why its wood is so popular with local artisans. If there's any wood is lying about on the forest floor, you might want to **pick up** the piece of **granadilla wood** as a souvenir. **Look at the wood** very carefully to see if its shape suggests how a woodcarver might finish forming it. Interesting, isn't it? Now it's time to explore the rest of the island, but whatever you do, don't (continued on page 211)

TIPS ON HIKING ON NONTONYT

Off The Beaten Trail

with your native guide,

Jungle Joe

As a native of this beautiful island, I am always so pleased when our visitors are wishing to explore its lovely jungles. But take warning, you silly stranger; there is much to be knowing about this island, and much to beware! Many have come to me for counsel and have lived to take another foolish photograph. Of those who are not heeding my words, most are so much pig slop on the jungle floor. Young Judi escaped this doom. Lucky she be listen to *me* all these years. You can read about her in this issue also, mon.

Now hear me, newcomer; when you go into the jungle, you be taking plenty of fresh water so you aren't drying up like an old prune. Beware the wild creatures who are wanting to eat you or kill you for sport. In the jungle, a harmless vine is becoming a snake, the rock a poisonous lizard with teeth *6 inches long!* A harmless mud puddle may be deadly quicksand, you know? Don't worry that the Feral Pigs be sneaking up on you -- they will be attacking you in a sincere and straightforward manner.

Now I must tell you how easily you are getting lost in our dense jungles and bamboo forests. If you wander into the bamboo, it may be you never come out again. If this happens, I hope you picked lots of juicy Nontonyt Nectarines to nourish you. Maybe you'll just fall off a big cliff and die, mon.

I always tell visitors about the unlucky traveler who was impaled upon (cont. page 192)

FERAL PIGS ATTACK ANOTHER VILLAGER Native villager Judi gets porked

NPI- In yet another near-tragic episode, native villager Judi was assaulted by Feral Pigs in an area of the Nontonyt jungle known to be thick with the wild creatures. Through the use of her keen wit and available resources, Judi escaped with minor injuries. When asked why she ventured into this hazardous region, Judi replied, "Because it was there."
